THEY DESERVE SAFE WATER FOR A GOOD HEALTH

KEY GLOBAL CHALLENGES THREATENING WORLD POPULATION'S FUTURE

Environment

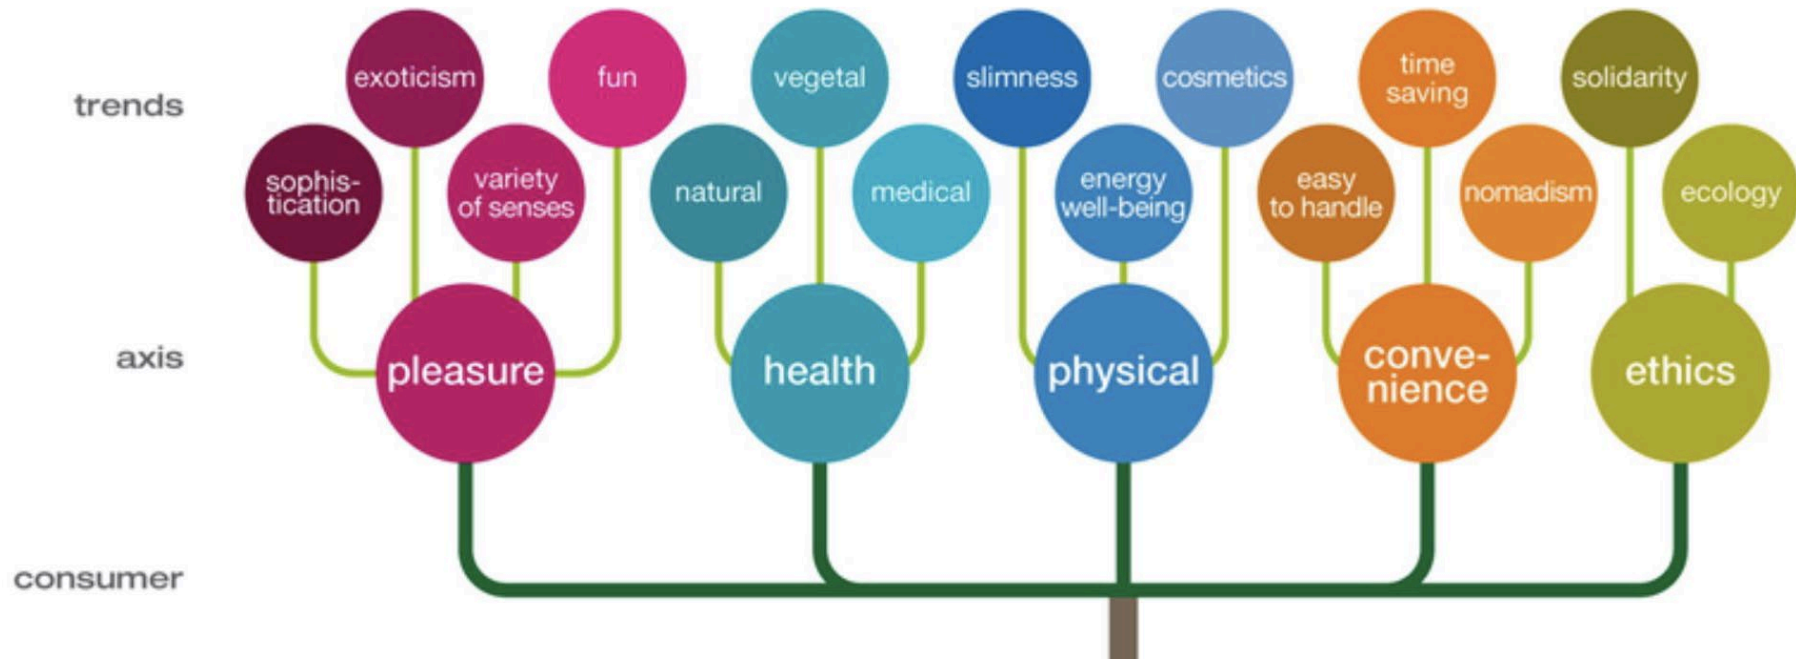

- Springs pollution and drying out.
- Invasive microplastics.
- CO2 emission of bottled water.
(plastic and supply chain)

Health

- Pollutants that can't be filtered in tap water.
- (nitrate, endocrine disruptors, microplastics)
- ¼ of world population don't have access to
- safe water (WHO source-2021)

FAVOURABLE CONTEXT

Key supporting social drivers → Europe, North America, Eastern Asia, China, Australia

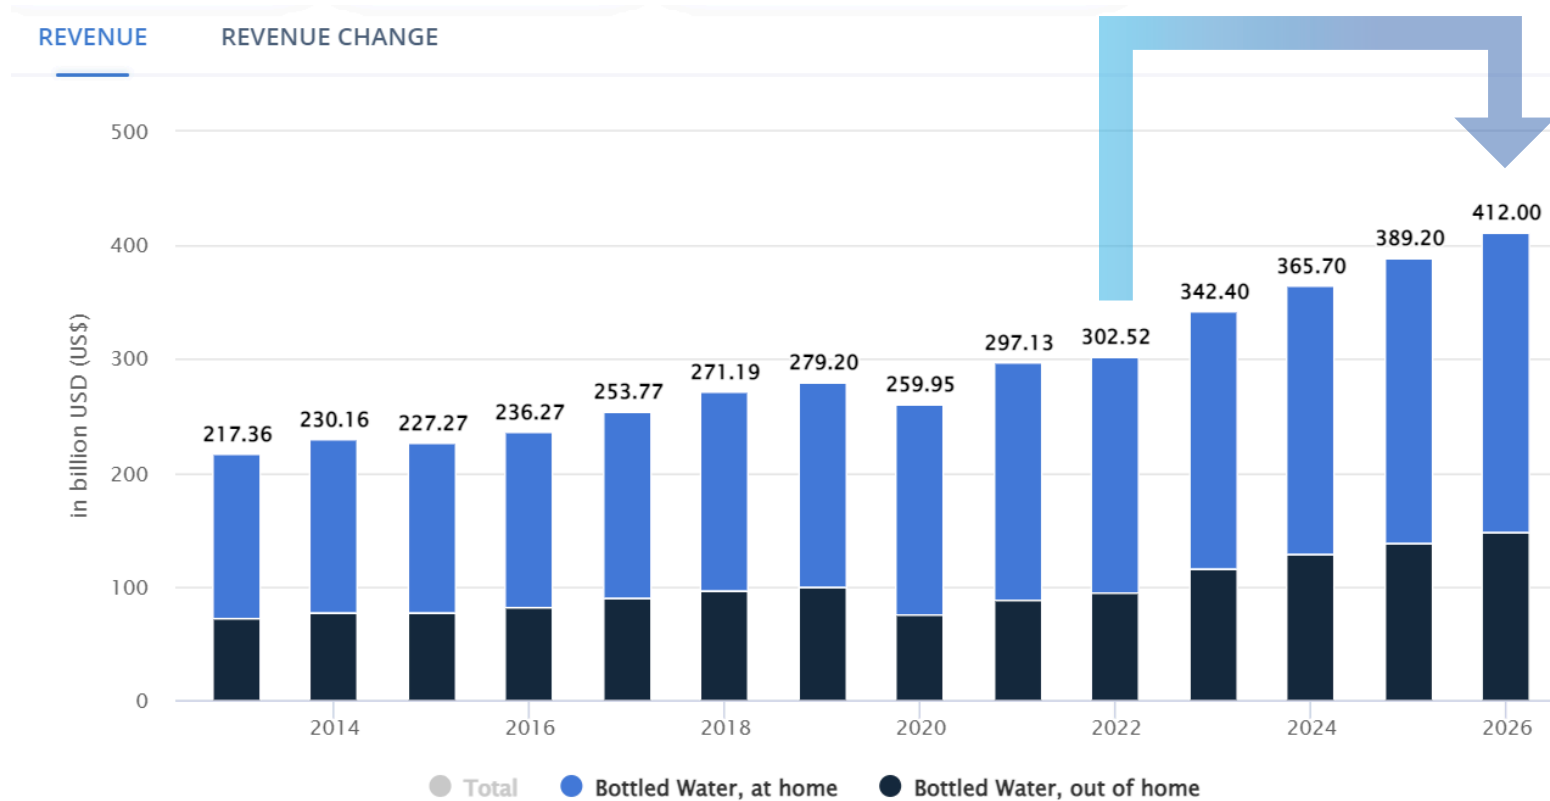

Sources: Trend tree from XTC

FAVOURABLE CONTEXT

Bottled water worldwide market US \$ → +35% expected growth 2022 vs 2026

Source : Statista-2021

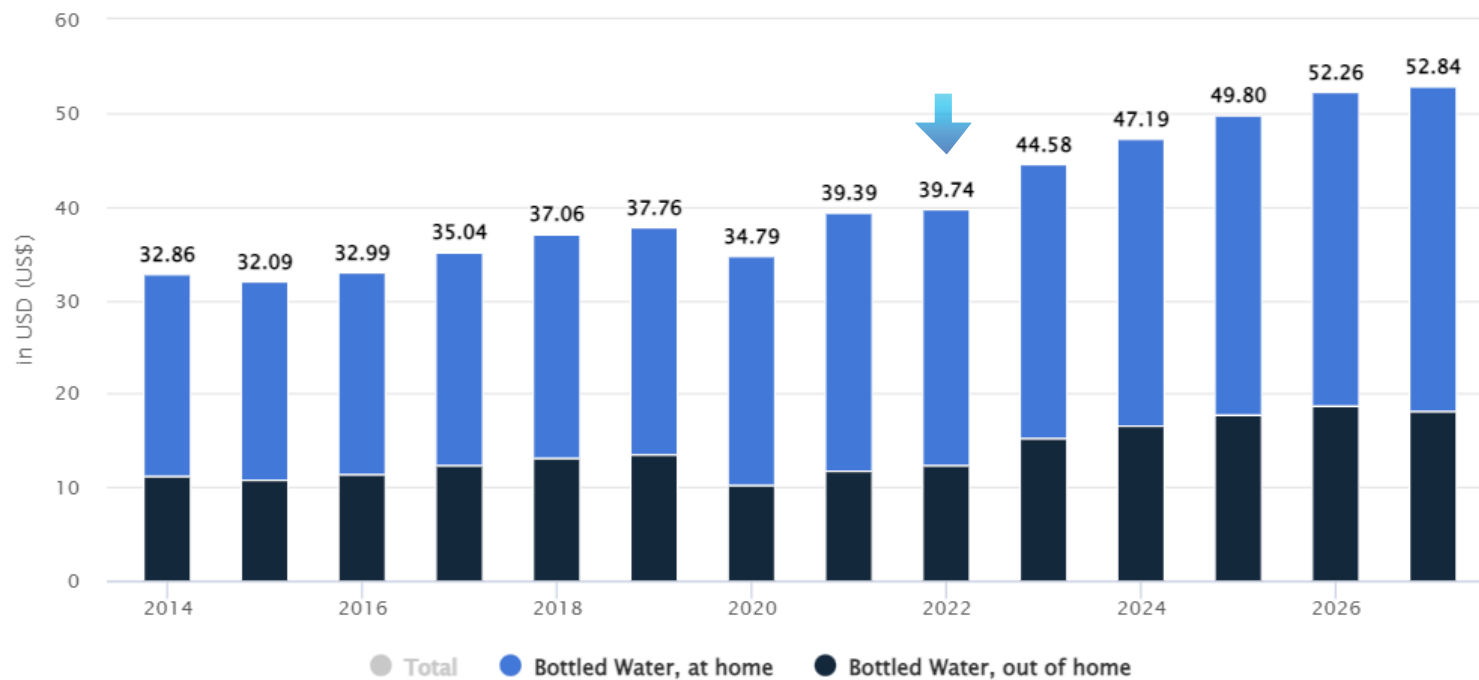

FAVOURABLE CONTEXT

Bottled water worldwide market → US \$ sales per capita

AVERAGE REVENUE PER CAPITA

437 billion litres of water drunk annually

Source: Statista-2021

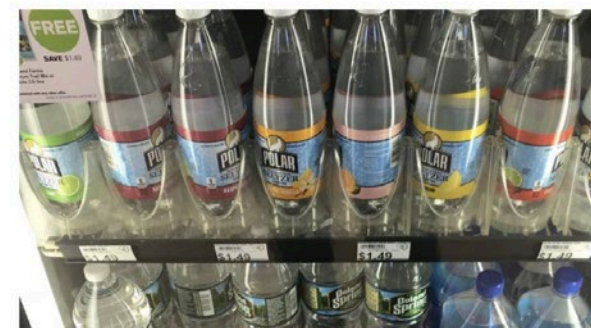

FAVOURABLE CONTEXT

Bottled water supply → hassle & burden

Increasing bottled water bans

RECENTLY INTRODUCED SOLUTIONS TO QUENCH THIRST

Ready-to-drink

Manual preparation

Dispensing system

Sources: Trend tree from XTC

SOLUTIONS TO QUENCH THIRST

- High plastic generation.
- High CO2 impact.
- Decreasing micro-bio water quality.
- Cumbersome transport

- High plastic generation.
- Very low filtration level.
- No recyclable filters.
- Bacterial development in the filter

- No filtration
- No sanitisation
- Few customisation options.

- High disposable pollution.
- No recyclable filters.
- No customisation options.
- Doesn't filter micro pollutants

Sources: Trend tree from XTC

RECENTLY INTRODUCED SOLUTIONS TO QUENCH THIRST

mitte 

- Doesn't filter micro pollutants.
- 3 non recyclable filters.
- Few customisation options.

evian

- One water type.
- CO2 impact → logistics.
- No water customisation.

LUQEL

- Doesn't filter micro pollutants.
- 3 non recyclable filters.
- Non recyclable cartridges.

**FUTURE
SPRINGS**

FUTURE SPRING THE RELEVANT RESPONSE TO HEALTH AND ENVIRONMENTAL ISSUES

VALUE PROPOSITION

A **profit growth** generator for Aqualia partners.

ENVIRONMENT

A true **game changer** in the category.

HEALTH

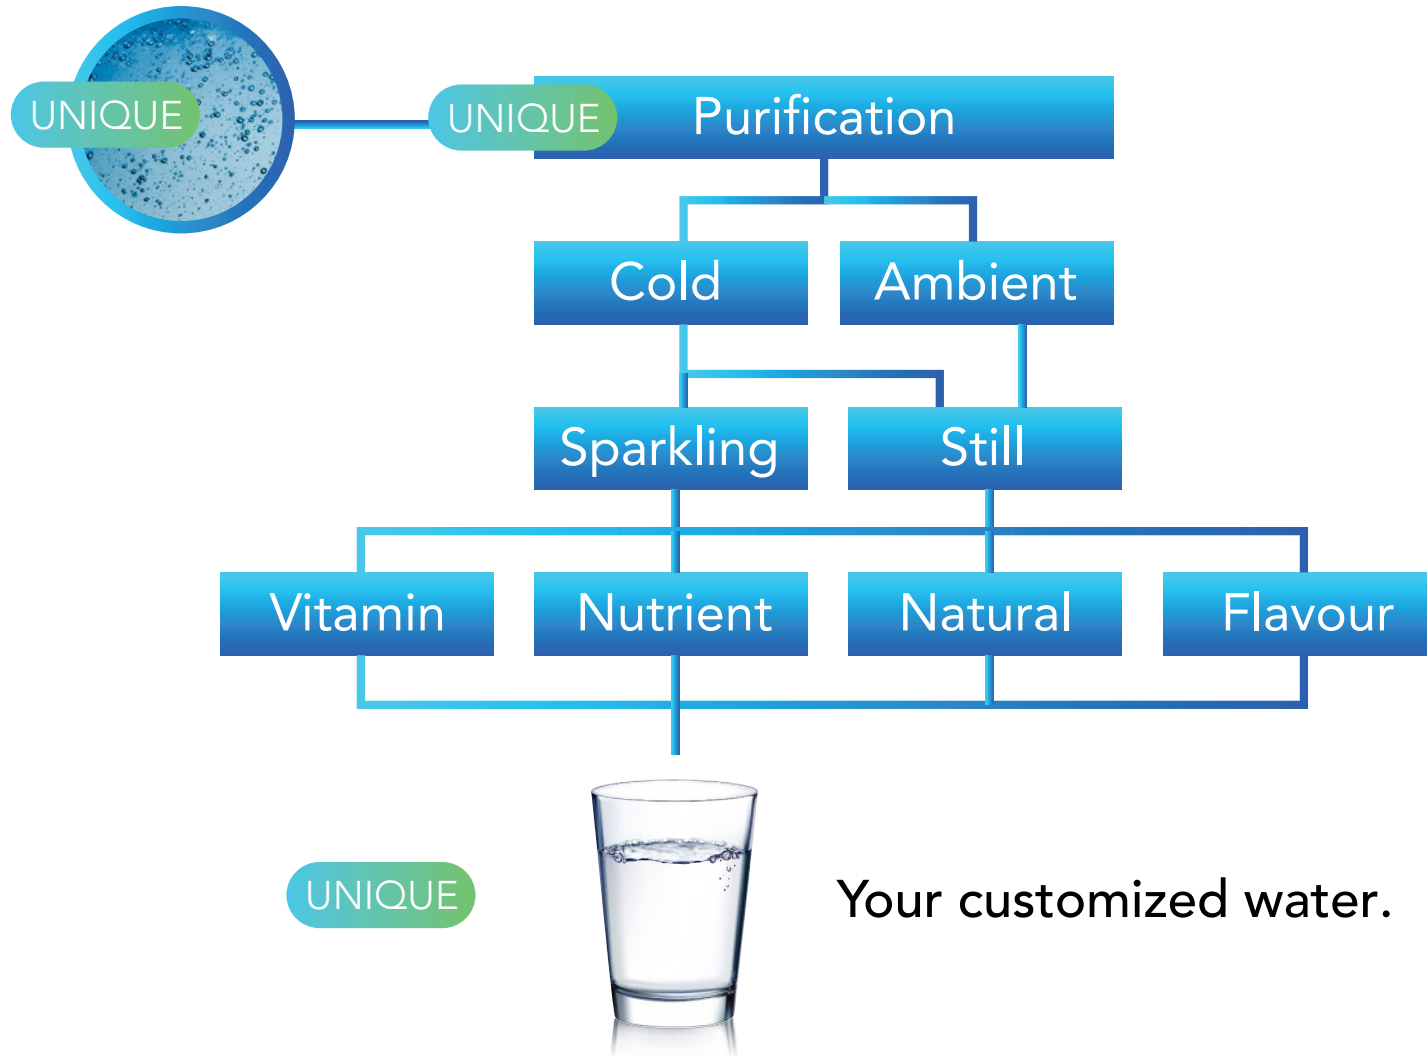

A SMART SYSTEM

VALUABLE OUTPUTS

Source water
tap, lake, sea,
well, stream ...

VALUE PROPOSITION PILLARS FROM CONSUMER PERSPECTIVES

My secure hydration partner, versatile and healthy.

- ➔ Highly purified water from any particle or pollutant.
- ➔ Multiple kinds of water from one dispenser.
- ➔ Customisation and enhancement thanks to IoT.
- ➔ No more plastic bottle waste and bottles to carry.

ENVIRONMENTAL CONTRIBUTION

UNIQUE

CO2 impact reduced by 90% for each litre produced.

Plastic generation reduced by 100%.

38 times less trucks on the road

TEAM SHORT INTRODUCTION

VISIONARY, INNOVATIVE, AGILE & PRACMATIC

BUSINESS

TECHNOLOGY

Background

> 25 years in food & beverage / household appliance / water dispenser / industrial refrigeration / sanitisation / water treatment / coffee systems / IoT / aviation / space / automotive / med-tech /

Expertise

- Business development
- Business modelling
- Strategy
- Governance & management
- Startup mentoring.

- Hardware & software
- Engineering & research
- Development & industrialisation
- Fast prototyping
- Design

Achievements

NESPRESSO
VertuoLine

Foodle

Tefal
ActiFry

FUTURE SPRINGS TODAY

UNIQUE

PROVEN CONCEPT

- Proof of concept & CAD drawings.
- Micro bio and consumer tests.
- Tested technology.
- Customisation mixes.

12 PATENTS

- Services.
- Machine.
- Device.
- Products.

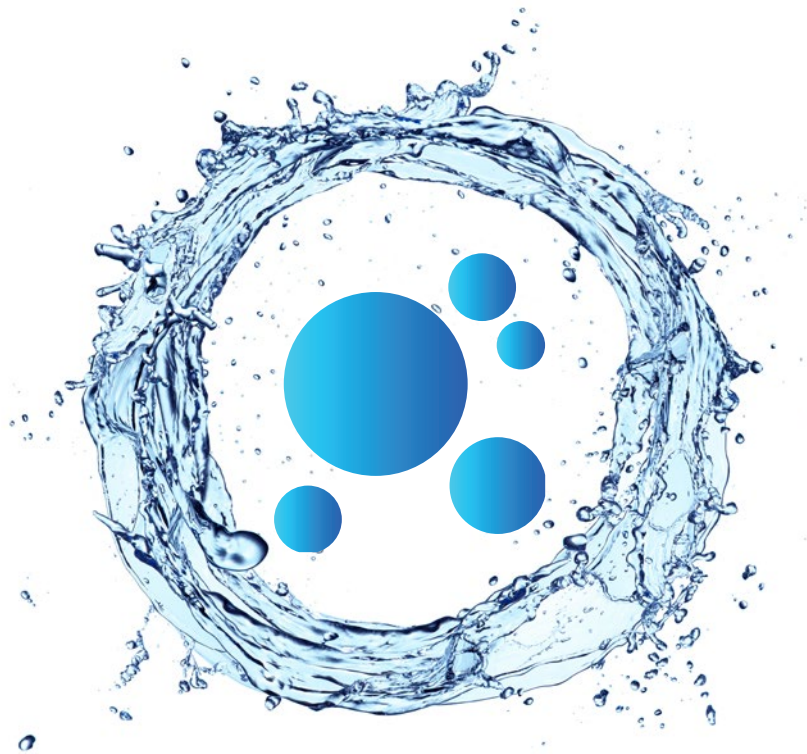

SKILLED TEAM

- Technology.
- Business.
- Finance.
- Data Design.

BUSINESS HIGHLIGHTS → HIGH REVENUE GENERATOR

WHAT?

Corporate

- Royalties
- Data from cloud

End users

- Capsules
- CO2 bottles

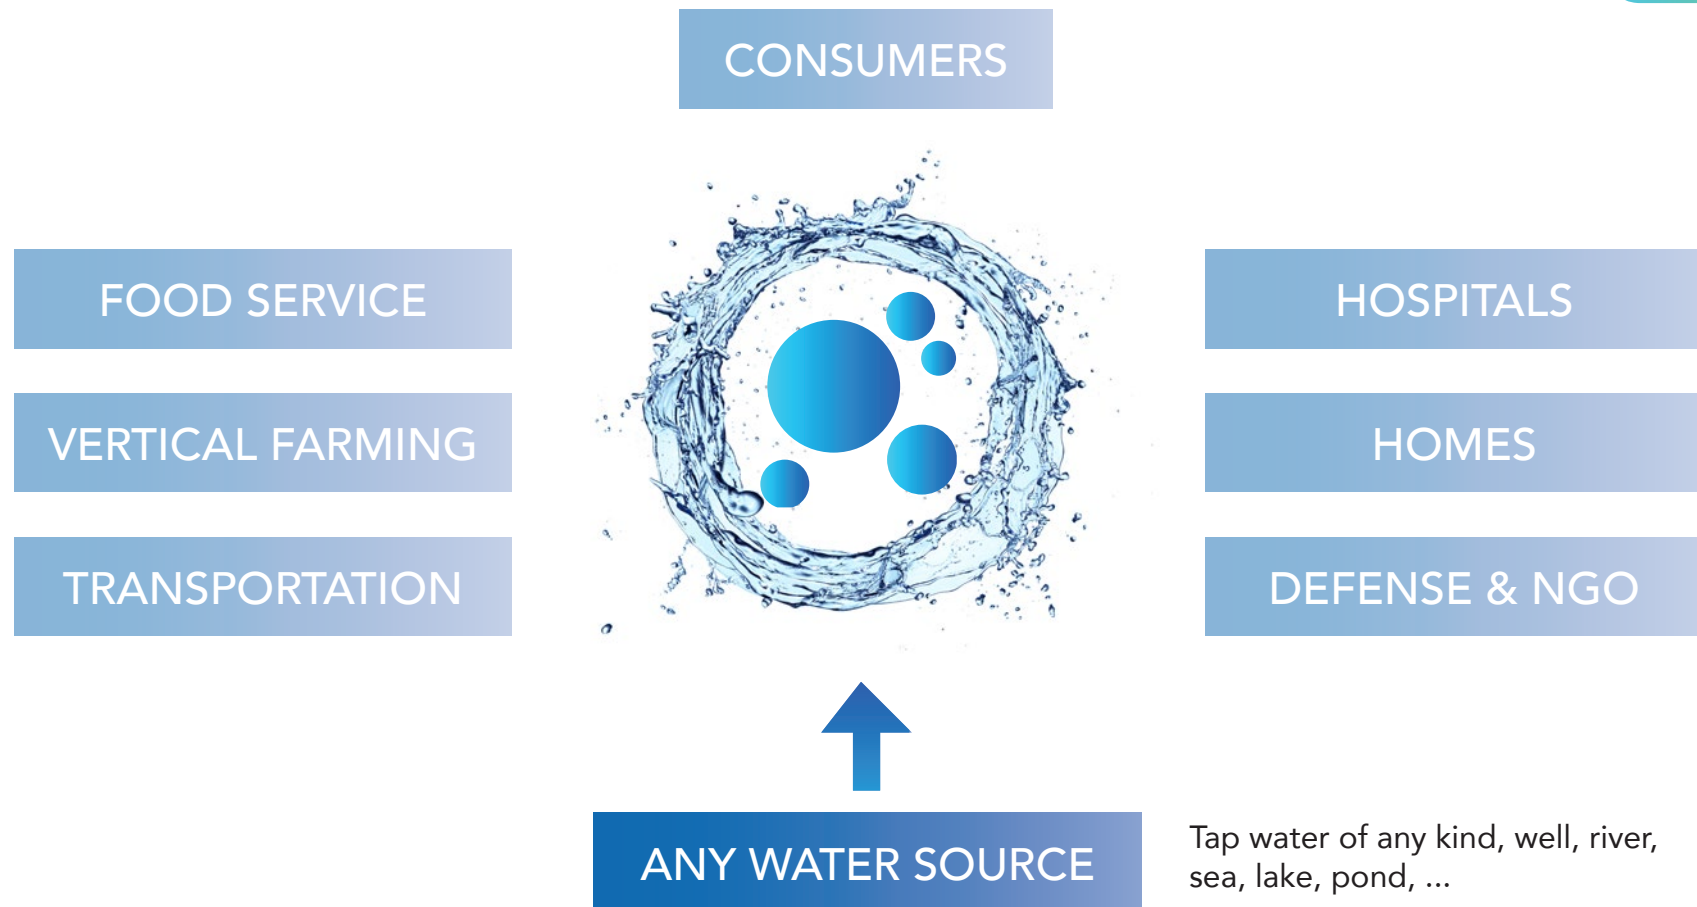

HOW?

Environment

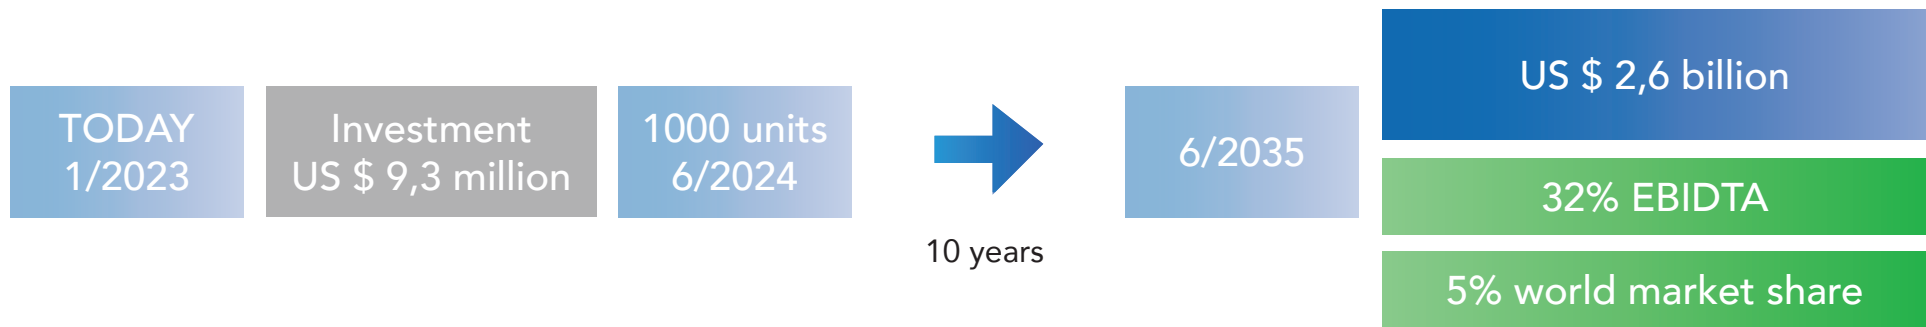

- Technology.
- Business.
- Finance.
- Data Design

BUSINESS HIGHLIGHTS → MULTIPLE APPLICATIONS

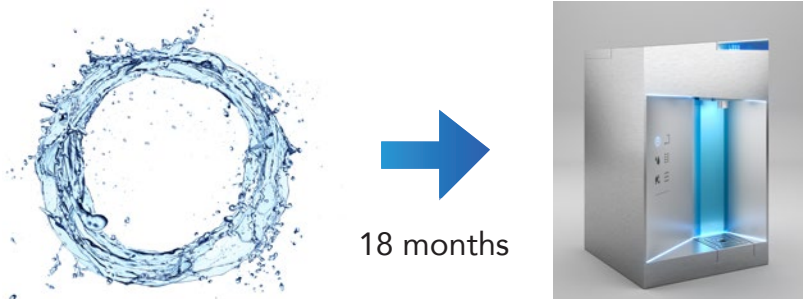

UNIQUE

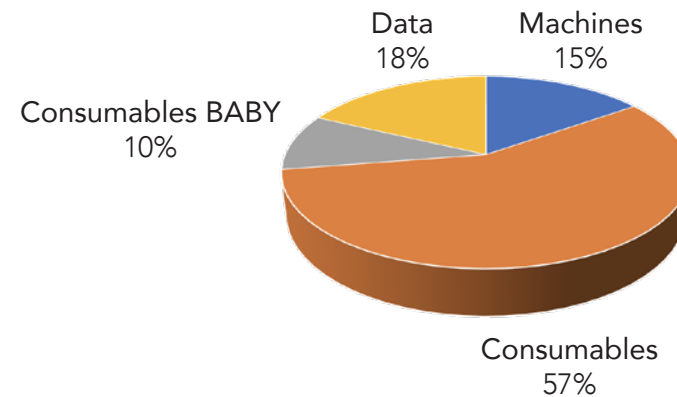

BUSINESS HIGHLIGHTS → EXPECTED TURNOVERS
